Foreword

This document was compiled as a guideline to be used in coding ISEE assignment forms and contains terms and their definitions found in the handbooks of standard educational terminology constituting the *State Educational Record and Report Series* and other definitions found on various websites. It is a quick reference of terms and definitions, thus promoting an achievement of comparability and compatibility of recorded and reported educational information.

Subject Fields and Assignment Code Descriptions

The basic course code consists of a 5-digit number, with the first 2 digits corresponding to the subject area to which that course belongs. These 2 digits provide the user with a logical link to the subject fields that are used to further describe the course. An alphabetic ordering by subject is used in assigning the subject area codes (e.g., Elementary = 00, English Language and Literature = 01, Mathematics = 02, Life and Physical Sciences = 03).

The last 3 digits of the basic assignment code correspond to the order of courses as described within the subject area. Although rigorous procedures are not used to order courses within the subject areas, courses are grouped according to topics and skills covered within the courses.

Some numbers are used consistently to denote certain characteristics of the courses. Assignment codes have been grouped into the following subject fields and should be taught by certified staff holding the proper teaching credentials.

Assignment codes for grades 6, 7 and 8 are also located in these subject matter areas but “5” has been added to the 1st digit of the subject field (e.g. English Language and Literature for grades 9-12 = 01; English Language and Literature for grades 6-8 = 51).

The self-contained elementary and special education assignment codes for grades 1-6 are no longer available. All teachers of elementary students need to be reported using specific content assignment codes so that students are correctly associated with the applicable course assignments. The 00005 Exploratory (Gr. K-6) assignment code should be used for all non-core content elementary assignments.

Only six (6) digit assignment codes receive Professional Technical Education (PTE) secondary added cost funding. The PTE Assignment Credential Manual can be viewed at the following web location:
<http://www.sde.idaho.gov/site/isee/>

Although every attempt has been made to accommodate the many different types of courses taught throughout the state, you may not see the exact title and description you are seeking. Please choose the assignment code that most closely aligns to what is actually being taught.

52151 General Applied Mathematics (Gr. 6-8) 02151 General Applied Mathematics (Gr. 9-12) Course reinforces general math skills for students who have previously attained them, may extend these skills to include some pre-algebra and algebra topics, and use these skills in a wide variety of practical, consumer, business, and occupational applications. Applied Math - General Focus courses reinforce general mathematics topics, such as arithmetic using rational numbers, measurement, and basic statistics. Enhancement topics: ratio and proportion, exponents and radicals, area, perimeter, and volume of geometric figures, formulas, and simple equations.	7010 All Subjects K/8 - 52151 7011 All Subjects 1/8 – 52151 7029 Generalist K/12 - 52151 7030 Hearing Impaired K/12 - 52151 7035 Visually Impaired K/12 - 52151 7300 Mathematics 6/12 7320 Basic Mathematics 6/12 8300 Mathematics 6/9 8320 Basic Mathematics 6/9	<i>Must be highly qualified in Mathematics</i> <u>*Click here to access the various ways to demonstrate highly qualified status according to the federal definition</u>
02153 Technical Math (Gr. 9-12) Technical Math courses extend students' proficiency in mathematics, and often apply these skills to technical and/or industrial situations and problems. Technical Math topics may include but are not limited to rational numbers, systems of measurements, tolerances, numerical languages, geometry, algebra, statistics, and using tables, graphs, charts, and other data displays. Technology is integrated as appropriate.	7300 Mathematics 6/12 7320 Basic Mathematics 6/12 8300 Mathematics 6/9 8320 Basic Mathematics 6/9	<i>Must be highly qualified in Mathematics</i> <u>*Click here to access the various ways to demonstrate highly qualified status according to the federal definition</u>
02154 Business Math (Gr. 9-12) Course reinforces general math skills for students who have previously attained them, emphasizes speed and accuracy in computations, may extend the general math skills to cover additional math concepts, and uses these skills in a variety of business applications. Business Math reinforces general math topics such as arithmetic using rational numbers, measurement, and basic statistics. In addition, these courses apply these skills to business problems and situations; applications might include wages, hourly rates, payroll deductions, sales, receipts, accounts payable and receivable, financial reports, discounts, and interest. 03106 AP Chemistry (Gr. 11-12) Course designed to parallel college level general chemistry courses; AP Chemistry courses usually follow high school chemistry and second-year algebra. AP Chemistry courses require more time, effort, and formulation from students than regular secondary chemistry courses. Topics may include atomic theory and structure; chemical bonding; nuclear chemistry; states of matter; and reactions (stoichiometry, equilibrium, kinetics, and thermodynamics). AP Chemistry laboratories are equivalent to those of typical college courses. This course is intended to prepare students for the optional Advanced Placement Exam in this subject and should follow the published College Board guidelines.	7420 Natural Science 6/12 7430 Physical Science 6/12 7440 Chemistry 6/12	<i>Must be highly qualified in Science</i> <i>*Click here to access the various ways to demonstrate highly qualified status according to the federal definition</i>

71001 Pre-Engineering Technology (Gr. 6-8) 21001 Pre-Engineering Technology (Gr. 9-12) Pre-Engineering Technology courses integrate technology-oriented applications of mathematics and science into pre-engineering activities for students. Course topics may include material sciences, technology processes, enterprises, and career opportunities.	7010 All Subjects K/8 - 71001 7011 All Subjects 1/8 - 71001 7029 Generalist K/12 - 71001 7030 Hearing Impaired K/12 - 71001 7035 Visually Impaired K/12 - 71001 7981 Technology Ed 6/12	N/A
21006 Engineering Design (Gr. 9-12) Engineering Design courses offer students experience in solving problems by applying a design development process. Often using solid modeling computer design software, students develop, analyze, and test product solutions models as well as communicate the features of those models.	7981 Technologies Ed 6/12	N/A
21009 Robotics (Gr. 9-12) Robotics courses develop and expand students' skills and knowledge so that they can design and develop robotic devices. Topics covered in the course may include mechanics, electrical and motor controls, pneumatics, computer basics, and programmable logic controllers.	7981 Technology Ed 6/12	N/A

21010 Computer Integrated Manufacturing (Gr. 9-12) Computer Integrated Manufacturing courses involve the study of robotics and automation. Building on computer solid modeling skills, students may use computer numerical control (CNC) equipment to produce actual models of their three-dimensional designs. Course topics may also include fundamental concepts of robotics, automated manufacturing, and design analysis.	7981 Technology Ed 6/12	N/A
21015 Particular Topics in Engineering (Gr. 9-12) These courses examine specific topics in engineering other than those already described.	7981 Technology Ed 6/12	N/A
71051 Technological Literacy (Gr. 6-8) 21051 Technological Literacy (Gr. 9-12) Technological Literacy courses expose students to the communication, transportation, energy, production, biotechnology, and integrated technology systems and processes that affect their lives. The study of these processes enables students to better understand technological systems and their applications and uses.	7010 All Subjects K/8 - 71051 7011 All Subjects 1/8 - 71051 7029 Generalist K/12 - 71051 7030 Hearing Impaired K/12 - 71051 7035 Visually Impaired K/12 - 71051 7981 Technology Ed 6/12	N/A
21052 Technological Processes (Gr. 9-12) Technological Processes courses provide students with the opportunity to focus on one or more areas of industrial technology, applying technological processes to solve real problems and developing the knowledge and skills to design, modify, use, and apply technology appropriately. Students may examine case studies, explore simulations, or design and build prototypes and working models.	7981 Technology Ed 6/12	N/A
21102 Drafting – General (Gr. 9-12) Drafting–General courses, usually offered as a sequence of courses, introduce students to the technical craft of drawing illustrations to represent and/or analyze design specifications and then refine the skills necessary for this craft. Drafting–General courses use exercises from a variety of applications to provide students with the knowledge and experience to develop the ability to perform freehand sketching, lettering, geometric construction, and multi view projections and to produce various types of drawings (working, detail, assembly, schematic, perspective, and so on). Computer-aided drafting (CAD) systems (if available) are typically introduced and used to fulfill course objectives.	7981 Technology Ed 6/12	N/A

21103 Drafting – Architectural (Gr. 9-12) Drafting–Architectural courses introduce students to and help them refine the technical craft of drawing illustrations to represent and/or analyze design specifications, using examples drawn from architectural applications. These courses are intended to help students develop general drafting skills, but place a particular emphasis on interior and exterior residential (and light commercial) design, site orientation, floor plans, electrical plans, design sketches, and presentation drawings. In addition, students may prepare scale models.	7981 Technology Ed 6/12	N/A
21106 Drafting – Technical/Mechanical (Gr. 9-12) Drafting–Technical/Mechanical courses introduce students to and help them refine the technical craft of drawing illustrations to represent and/or analyze design specifications, using examples drawn from industrial applications. These courses are intended to help students develop general drafting skills, but place a particular emphasis on sectioning, auxiliary views, revolutions, and surface development. In these courses, students may learn basic machining and fabrication processes as they draw schematic diagrams featuring cams, gears, linkages, levers, pulleys, and so on.	7981 Technology Ed 6/12	N/A
21107 CAD Design and Software (Gr. 9-12) Frequently offered as an intermediary step to more advanced drafting courses (or as a concurrent course), CAD Design and Software courses introduce students to the computer-aided drafting systems available in the industry.	7981 Technology Ed 6/12	N/A
21996 Engineering and Technology – Special Education (Gr. 9-12) Designed to meet the needs of students with Individual Education Plans (IEPs), Engineering and Technology –Special Education courses provide students with experience in a field related to engineering or technology. Goals are typically set cooperatively by the student, teacher, and employer (although students are not necessarily paid). These courses may include classroom activities as well, involving further study of the field or discussion regarding experiences that students encounter in the workplace.	7029 Generalist K/12 7031 Serious/Emotion K/12 7032 Sev Retardation K/12 7033 Multiple Impair K/12 7034 Physical Impair K/12	N/A

72001 Standardized Test Preparation (Gr. 6-8) 22001 Standardized Test Preparation (Gr. 9-12) Standardized Test Preparation courses help prepare students for national standardized tests such as the PSAT, SAT, and ACT. In particular, these courses assist students in developing and/or expanding their vocabulary, test-taking, and reasoning skills through study, lecture, and practice drills. Course topics may include vocabulary review; root words, prefixes, and suffixes; mathematical concepts, logic, and rules; and general problem-solving and test-taking strategies.	Valid Idaho Certificate	N/A
72002 State Test Preparation (Gr. 6-8) 22002 State Test Preparation (Gr. 9-12) State Test Preparation courses prepare students for particular state tests required for graduation. These courses may cover specific content areas (such as citizenship, mathematics, language arts, and so on) according to individual student needs, or they may provide a more general course of study, similar to the Standardized Test Preparation course described above.	Valid Idaho Certificate	N/A
72003 Study Skills (Gr. 6-8) 22003 Study Skills (Gr. 9-12) Study Skills courses prepare students for success in middle and high school and/or for postsecondary education. Course topics may vary according to the students involved, but typically include reading improvement skills, such as scanning, note-taking, and outlining; library and research skills; listening and note-taking; vocabulary skills; and test-taking skills. The courses may also include exercises designed to generate organized, logical thinking and writing.	Valid Idaho Certificate	N/A
72004 Dropout Prevention (Gr. 6-8) 22004 Dropout Prevention (Gr. 9-12) Dropout Prevention Program courses vary widely, but typically are targeted at students who have been identified as being at risk of dropping out of or failing in school. Course content may include study skills and individual tutorials; job preparation, readiness, application, or interview skills; communication skills; personal assessment and awareness activities; speaker presentations; and small group seminars. 72005 Tutorial (Gr. 6-8) 22005 Tutorial (Gr. 9-12) Tutorial courses provide students with the assistance they need to successfully complete their coursework. Students may receive help in one or several subjects.	Valid Idaho Certificate	N/A
72006 Study Hall (Gr. 6-8) 22006 Study Hall (Gr. 9-12) Study Hall courses provide students with the opportunity and time to complete classroom assignments or school projects. Students typically work on their own, without the help of a tutor; however, they are supervised and usually remain in the classroom.	Valid Idaho Certificate	N/A
72051 Office/Library/Classroom Aide (Gr. 6-8) 22051 Office/Library/Classroom Aide (Gr. 9-12) Courses typically provide students with the opportunity to work in a school office, library or classroom developing skills related to clerical office, library or classroom work. Duties may include typing, filing, record-keeping, receiving visitors, answering the telephone, among others. These courses emphasize appropriate work attitudes, human relations, and proper school environment procedures.	Valid Idaho Certificate	N/A
22054 Tutoring Practicum (Gr. 9-12) Tutoring Practicum courses provide students with the opportunity to offer tutorial assistance to their peers or to younger students. After an initial training period during which students learn how to work with other students and how to make use of the available resources (e.g., staff, written material, audiovisual aids, and so on), students engage in tutoring and assisting others who need or request help.	Valid Idaho Certificate	N/A
22101 Leadership (Gr. 9-12) Leadership courses are designed to strengthen students' personal and group leadership skills. Typically intended for students involved in extracurricular activities (especially as officers of organizations or student governing bodies), these courses may cover such topics as public speaking, effective communication, human relations, parliamentary law and procedures, organization and management, and group dynamics. These courses may vary widely according to the philosophy, aims, and methods of each school.	Valid Idaho Certificate	N/A
22103 School Governance (Gr. 9-12) School Governance courses convene students as an entire student body to discuss common concerns, organize groups for action, make decisions, and solve school-related problems. Because of the nature of these courses, they are typically offered at private, alternative, or experimental schools.	Valid Idaho Certificate	N/A
22104 Community Service (Gr. 9-12) Community Service courses provide students with the opportunity to volunteer their time, energy, and talents to serve a community project or organization. These courses are usually (but not always) conducted with a seminar component, so that students can use their volunteer experiences to learn how to solve problems, make decisions, and communicate effectively.	Valid Idaho Certificate	N/A
22106 Seminar/Senior Projects (Gr. 11-12) Seminar courses vary widely, but typically offer a small peer group the opportunity to investigate areas of interest. Course objectives may include improvement of research and investigatory skills, presentation skills, interpersonal skills, group process skills, and problem-solving and critical-thinking skills. Seminars aimed at juniors and seniors often include a college and career exploration and planning component.	Valid Idaho Certificate	N/A

62005 Keyboarding (Gr. 6-8) 12005 Keyboarding (Gr. 9-12) Keyboarding courses provide students with an introduction to the keyboard (letters, numbers, and symbols), basic machine operation, and proper keystroke technique. As students progress, they improve their speed and accuracy and produce increasingly complex documents. Such courses help students develop keyboard proficiency, document production skills, and problem-solving skills.	Valid Idaho Certificate	N/A
12006 Word Processing (Gr. 9-12) Word Processing courses introduce students to automated document production using one or more software packages. These courses may introduce keyboarding techniques or may require prior experience; in either case, speed and accuracy are emphasized. A parallel focus is placed on the use of software commands and functions to create, edit, format, and manipulate documents, capitalizing on the power offered by word processing software programs. These courses may also cover file and disk management and other computer-related skills.	Valid Idaho Certificate	N/A
22151 Career Exploration (Gr. 9-12) Career Exploration courses help students identify and evaluate personal goals, priorities, aptitudes, and interests with the goal of helping them make informed decisions about their careers. These courses expose students to various sources of information on career and training options and may also assist them in developing job search and employability skills.	Valid Idaho Certificate	N/A
54311 Particular Topics in Humanities (Gr. 6-8) Block courses reserve an extended period of time to students to pursue a thematic unit (or units) of study, drawing lessons from more than one discipline. The courses are taught in teams by instructors of the pertinent disciplines, who weave their lessons together, encourage students to be involved in their own learning process, and strive to engender critical thinking and problem solving. Students typically work in small groups as well as individually.	Valid Idaho Certificate	N/A
